

XENON DUO PACK

BOSMA RECOMMENDS! HEADLIGHT LIGHT SOURCES SHOULD ALWAYS BE REPLACED IN PAIRS!

- On-road safety – xenon lamps have a set lifetime, and if one burns out, it means that the other isn't be far behind.
- Improved visibility – xenon lamps sometimes emit less and less light. Only an identical stream of light from both headlights will ensure optimal and even lighting of the road.
- Night-time driving comfort – the light of xenon lamps changes colour over time. Only an identical colour of light from both headlights ensures that you can see the road clearly.
